

Technical Data Sheet

Stainless steel

High-quality stainless steel sheet for laser and engraving technology

Typical Properties

- One of the highest-quality materials for laser and engraving technology
- Very durable and long-lasting
- High-quality, consistent appearance
- Suitable for heavy-duty, permanent identification

Typical Industries

- Industry in general
- Mechanical engineering
- Plant construction

Test Method	Unit	Value
Version		
Material		Stainless steel
Surface finish		brushed
Processing		Laser engraving

Please ask us about additional surface finishes and thicknesses of stainless steel for engraving technology. This overview is intended as guidance for material selection and does not constitute a legally binding assurance of specific properties.
