

Declaration Concerning Food Contact

FDA (Food & Drug Administration)

Product: ABS natural

We hereby point out that, according to the resin manufacturer, our above-mentioned product is not declared as FDA compliant. Although section 21 CFR, Part 177, Section 1020 "Acrylonitrile/butadiene/styrene co-polymer" exists for this class of material, the resin manufacturer does not confirm compliance of the specific semi-finished compound supplied with this section.

Restrictions

Compound: This is a natural ABS semi-finished product in a standard engineering compound, intended for general mechanical engineering, electrical engineering and consumer goods. No FDA declaration of compliance is available.

Food contact: The product is not intended for applications with direct food contact. For such applications we recommend a material with an available declaration of compliance (e.g. POM-C FG, PET FG or food grade PE/PP).

Compliance with these requirements was not checked on the semi-finished product, as these generally relate to the final article. The exact provisions of the above-mentioned FDA regulation can be found at:
<https://www.accessdata.fda.gov/scripts/cdrh/cfdocs/cfcfr/cfrsearch.cfm>

Use in food contact requires a separate assessment and confirmation by the user; we do not declare food-contact suitability for this product.

Note: It is the customer's own responsibility to test the suitability of plastic items manufactured from or with our products for the planned application in the foodstuff industry. That includes for example:

- testing, if the physical characteristics of the plastic are suitable for the planned application,
- testing, if plastic parts manufactured by the customer fulfil the prescribed migration or extraction values,
- testing for possible influence of the plastic on the composition and/or organoleptic characteristics of foodstuffs.

This information is based on the information provided by our suppliers. We are not liable for the completeness and correctness of information contained herein. Existing laws and regulations must be respected by the receivers/users of our product in their own responsibility.

All information contained in this document is provided in good faith and is based on sources believed to be reliable at the time of publication of this document. In the event of changes, for example due to legislation, manufacturing-related changes, or new scientific findings, this declaration will be reassessed and becomes invalid. This declaration expires automatically 12 months after the date of issue. It is the sole responsibility of our customer to ensure that the laws and regulations necessary for their intended use are complied with. Please request an up-to-date confirmation from Liedtke Kunststofftechnik if required.

The Food and Drug Administration (FDA) is an agency of the United States Department of Health and Human Services, one of the United States federal executive departments.
