

Food Contact Declaration

FDA (Food & Drug Administration)

Product: UP GM 204 (Hm 2472)

We hereby declare that, according to the information provided by our raw material suppliers, the resin component (unsaturated polyester resin) of the product named below complies with the requirements of FDA regulation 21 CFR, Part 177, Section 2420 "Polyester resins, cross-linked".

Restrictions

- **No suitability for food contact:** UP GM 204 (Hm 2472) is a technical glass-mat reinforced polyester hard laminate for electrical insulation applications and, as a finished laminate, is NOT declared suitable for direct food contact.
- **Other:** Testing for extraction limits under FDA regulations has not been carried out on the finished laminate, since the product is intended for technical insulation applications (electrical, switchgear, mechanical engineering).

The exact provisions of the above-mentioned FDA regulation can be found at:
<https://www.accessdata.fda.gov/scripts/cdrh/cfdocs/cfcfr/cfrsearch.cfm>

Our raw material supplier's quality management system is certified to DIN EN ISO 9001:2015 and forms an important basis for the consistent composition and quality of UP GM 204 (Hm 2472).

Note:

It remains the customer's responsibility to verify the suitability of plastic articles manufactured from or with our products for the intended application in the food sector, i.e. for example:

- Checking whether the physical properties of the plastic are suitable for the intended applications,
- Checking compliance with migration or extraction limits for the finished plastic parts,
- Checking the possible influence of the plastic on the composition and/or organoleptic properties of food.

Our statements are based on the documents provided by our suppliers. No liability is accepted for the completeness and accuracy of the information contained herein. Existing laws and regulations must be observed by the recipient/user of our products on their own responsibility.

All information contained in this document is provided to the best of our knowledge and belief and is based on sources considered reliable at the time of publication of this document. In the event of changes, for example due to legislation, manufacturing changes or new scientific findings, this declaration will be reassessed and become invalid. This declaration automatically expires 12 months after the date of issue. It is the sole responsibility of our customer to ensure that the laws and regulations necessary for its intended use are complied with. Please request an updated confirmation from Liedtke Kunststofftechnik if required.

The Food and Drug Administration (FDA) is the regulatory food safety and drug approval authority of the United States and reports to the Department of Health and Human Services.
